

Wide Mouth Mason, Puppet In A Clown Show

Try and hold your ears the noise outside is terrible
drunk and shooting out the lights inside your carnival

A sad disaster
A careless master

Of a puppet in a clown show
With twisted strings and vertigo
On fingers known to never know the way

On and on you dance along with every twitch and pull
Lift you up and let you down and hang you out to go

A sad disaster
A careless master

Of a puppet in a clown show
With twisted strings and vertigo
On fingers known to never know the way

Oh hanging over
It's so cold
I'm frozen solid
Going nowhere
Faster than I ever through this wreck could go
The driver bailed out long ago

A puppet in a clown show
With twisted strings and vertigo
And brittle bones will break and blow away

Seems so drastic
Made of plastic

A puppet in a clown show
With twisted strings and vertigo
On fingers known to never know
And brittle bones will break and blow away
