

Widespread Panic, Down

Take along some of your favorite things
'Cause you're gonna need 'em
Wait right here
Wait 'til I come back around
You and I will go
We'll just sit and watch it all go down
Down Down

I was fakin'
While you waited for change to come
I lied when I said I couldn't stay here anymore
When you and I just can't seem to get along
You and I both know
We'll just wait until it all calms down
Down Down
Down Down
Down Down

Careful of the things you want to say
'Cause you're gonna mean 'em
Break my pride
My backbone is feelin' strong
You and I both know
What we hold would never pull it down
Down Down
Down Down
Down Down

Take along some of your favorite things
'Cause you're gonna need 'em
