

# Widespread Panic, Nebulous

Tyranno Rex ruled the earth  
A kickin back his lazy chair  
Skinny mammals beating their chest  
Out the caves gonna catch a (?/nap)

Reptiles really joy the coolness (?)

All in a days time  
From New York to Angeline  
Fearless drive across the masses

Basking in the strobe  
Of the new blue tv screen  
Long before we where ever dreamed

We're in main (?????)  
Faded waters of strength and commitment  
Million years of/to (?) weather  
Shark swims, armed with conviction  
Several ladies blowin' the kisses

John Wayne lives  
Riding off to another sunset  
Learn to live each lie  
Shaking off every bit of regret

Standing naked
