

Widespread Panic, Time Zones

Time zones

It doesn't matter where you go or how you wiggle and squirm
We're in a maze, baby

All alone

What doesn't kill you has a momma's way of
Helping ya learn

Blast off!

Five, four, three, baby 'bout to
Push it through

It's a payoff

You can tell cause

Don't tow it away

We'll all be back tomorrow

After today

We'll all come back tomorrow.

Pit stop

We're in the middle, everybody's learnin' to breathe

Leavin' like an

Earthquake

Leaves you shakin' but at least we're not

Shakin' alone

Angel bright, life and death

Up the road gonna salt my bread

Angels fly around my head

All gatherin' at the foot of my bed

Don't believe the lies they said

Keep it simple around

Hot steam

We're in the middle and baby that's a

Beautiful thing

Don't kill the

Mockingbird, who's really just

Learning to sing

Don't tow it away

Angel bright, life and death
