

# wigwam, A Long Way

I know the distance between Dubai and Montraux  
Been everywhere on this planet but the city of love  
I'm no stranger to passion  
I go there as often as I can  
Never wanted to settle down  
But girl you made me change my plans

And it's a long way to go  
When love's the destination it's a long way to go  
When that's where you wanna be I thought it would come easy  
But her heart is way out of reach  
Seems it's a long way to go  
When you're down on your knees

I'm a tourist in motion  
Counting each place I sat feet  
Been a backpacker without the slightest notion of where life has taken me  
Oh it sure took me places  
I never knew I would find  
This is the first time I know where I'm going  
And it sure feels like the miracle mile

Cuz it's a long way to go  
When love's the destination  
A long way to go when that's where you wanna be  
I thought it would come easy but her heart is way out of reach  
Seems it's a long way to go when you're down on your knees  
A long way to go
