

wigwam, Crazy Things

You jump out from the rooftop
Just to make her look your way
Tattoo her name on your chin to make her remember your face
Put her house on fire
So you can save her from the flames
There's nothing on earth that can keep you from her
No matter what it takes

The harder the crush
The higher the cost
Oh my..
Those crazy things we do for love

You run out on the highway
To get hit by her red jeep
Making sure you'll get a better chance to meet
And you don't care if it kills you
When the last thing you'll see is her face
Might be the closest you get, but don't you forget
Love don't come with brakes
Oh my..
The harder the crush
The higher the cost

Those crazy things we do for love
