

# wigwam, No More Living On Lies

Standing on the top and the world was eating out of my hands  
Having the time of my life in a rock`n roll band  
We had a few good years but then we started to run out of time  
Now I`m working so hard to take back  
What was allready mine

I never gonna run  
Never gonna run away again  
Life`s been to survive  
Now it starts to come alive  
And I never gonna fade  
Never gonna fade away again  
There`s no compromise  
Now I know it`s No More Living On Lies

Tied up within myself for the longest time  
I thought that it didn`t matter  
Thought I was doing fine  
Had to dig it up from inside  
Just to stand my ground  
It`s gonna taste even better now the second time around

I never gonna run  
Never gonna run away again  
Life`s been to survive  
Now it starts to come alive  
And I never gonna fade  
Never gonna fade away again  
There`s no compromise  
Now I know it`s No More Living On Lies

No one cares about your pain  
When you`re losing your fame it`s like crying in a hard rain  
I`ve reloaded my batteries and regained my insanity  
Now it`s time to face reality

I never gonna run  
Never gonna run away again  
Life`s been to survive  
Now it starts to come alive  
And I never gonna fade  
Never gonna fade away again  
There`s no compromise  
Now I know it`s No More Living On Lies
