

Wila Ford, Tired

You want the truth?

Here it is

Manufactured is this hot pop industry

I know cause they tried to do it to me

Don't let them take away your eyes

Be who you are and stop the sweet talkin' lies

And you're never gonna see me lip sync

And you're never gonna see me try to change

Cause I'm not the one who won't break it down

Follow me and you'll see that I'm gonna blow the roof off of this town

Tired of the blondes that look like me

Tired of you people saying "Britney"

I'm tired of the pop that should flop that should never be on TV

And in your teen magazines

I'm tired of the shit I take each day

Tryin' to sing my songs

Tryin' ta do it my way

I'm tired of the pop that should flop that should never be on TV

And in your teen magazines

Tired of the pop

Shame - It's the game you play for fame

But give it some time you won't remember their names

So you will, so you won't

It's those one-hit wonder melodies who cannot sing a note

And you're never gonna see me lip sync

And you're never gonna see me try to change

Cause I'm not the one who won't break it down

Follow me, and you'll see that I'm gonna blow..

I'll blow the roof off of this town

Tired of the blondes that look like me

Tired of you people saying "Britney"

I'm tired of the pop that should flop that should never be on TV

And in your teen magazines

I'm tired of the shit I take each day

Tryin' to sing my songs

Tryin' ta do it my way

I'm tired of the pop that should flop that should never be on TV

And in your teen magazines

Tired of the blondes that look like me

Tired of you people saying "Britney"

I'm tired of the pop that should flop that should never be on TV

And in your teen magazines

I'm tired of the shit I take each day

Tryin' to sing my songs

Tryin' ta do it my way

I'm tired of the pop that should flop that should never be on TV

And in your teen magazines

Yeah yeah yeah

Yeah yeah yeah

Yeah

Tired of the pop

Tired of the pop

Tired of the pop, the pop

It's the same old thang

Over & Over...

And you're never gonna see me lip sync
And you're never gonna see me change
Cause I'm the one who breaks it down
Follow me
You will see that I'm gonna blow the roof off this town

Tired of the blondes that look like me
Tired of you people saying "Britney";
I'm tired of the pop that should flop that should never be on TV
And in your teen magazines
I'm tired of the shit I take each day

And in your teen magazines

And in your teen magazines
