

# Wilburn Brothers, All We Had Going Is Gone

Why wear a ring that's turned to rust our fools gold has turned to rust  
There's no reason our love should go on  
We're drinking from a cup of tears our love's had its day for cheers  
All we had going is gone

We crushed the rose and kept the thorns it hurts us every way we turn  
I want you to stop this holding on  
The time has come to drop the act you love me when it's a fact  
All we had going is gone

Let it go if something keeps on hurting you  
Or it will keep on hurting till you do  
Lately I don't have the heart to try to hold what fell apart  
All we had going is gone  
( guitar )  
All we had going is gone
