

Wilburn Brothers, Hurt Her Once For Me

She's all hang up on you she'll do what you want her to
One look at you and she walk out on me
But I know all about your plan you gonna hurt her all you can
So buddy hurt her once for me
Lie to her like she lied to me build her up then laugh at her like she laughed at me
She put me down real low I tried not to let it show
But she made sure that everyone could see
I'm puttin' my money on you I know you gotta make her blue
So buddy hurt her once for me
(guitar)
Lie to her like she lied to me build her up then laugh at her like she laughed at me
You're the only man around I know that can put her down
And show her a taste of pain and misery
Oh I won't be satisfied no not until I know she's cried so buddy hurt her once for me
