

# Wilburn Brothers, I Had One Too Many

Stayed out all night last night my head is achin'  
And on top of that me and my baby had to spread my heart is breakin'  
When I came in she kicked me out the door oh my head is sore  
I had one too many when one was a plenty for me  
I had one too many when one was a plenty for me  
I had one too many and when I got the twenty I couldn't tell a bush from a tree  
I had one too many when one was a plenty for me  
( guitar + piano )  
Drove all around downtown I'll admit it  
And I said to myself self take a left and get it  
Then a big Cadillac through down street I headed and I really did it  
I had one too many when one was a plenty for me  
I had one too many...
