

Wilburn Brothers, I Know You Don't Love Me Any

I know you don't love me anymore on our love you gently closed the door

Someone else has won your heart now you plan a brand new start

I know you don't love me anymore

(fiddle - guitar)

You never even gave our love a chance now you say you found a new romance

I'll always love you that I know it hurts so much to see you go

I know you don't love me anymore

(piano)

It wasn't meant for me to judge you right or wrong

So now I hope you've really found the one

Who will give you love that's true just the way I wanted to

I know you don't love me anymore

(fiddle - steel)

I know you don't love me anymore...
