

Wilburn Brothers, I Will Never Be Happy

Oh I will never be happy until you're happy too
As long as your heart is lonely my heart will ache for you
And every night I'll pray dear you'll find the love that's true
For I will never be happy until you're happy too

You were my first love darling the first my arms caressed
And I was first in your heart the first you ever kissed
But I fell in love with another a love too strong to deny
But I still think about you and sometimes I wake up and cry

For I will never be happy until you're happy too
I don't know why I worry about you but I do
I have everything I dreamed of a home and the love that's true
But I will never be happy until you're happy too
