

# Wilburn Brothers, I Wind Back Up With You

It's true that every night I do the town and where the lights are low I can be found  
A different day each night and sometimes too  
But in my dreams I wind up back with you  
Your memories go with me everywhere when I'm in another's arms you're always there  
I wish the dreams I dream would just come true  
For in each one I wind up back with you  
( steel )  
My friends don't know that I still love you so for I don't ever let my heartaches show  
No matter when or where or what I do in every dream I wind up back with you  
Your memories go...
