

Wilburn Brothers, Little Bitty Heart

Can I get it up love can you give it up love to fill a little bitty heart like mine
This time I got a little bit of sweet sweet love from someone
Cause I've got a little bitty heart empty and alone
Well I think you lit but when it comes to love I'm a dumb one
Can I get enough love can you give enough love to fill a little bitty heart like mine
It don't take much love to fill a little bitty heart like mine
Can I get enough love can you give enough love to fill a little bitty heart like mine
(steel)
I don't need too much I think a half a cup will do me
Cause I've heard a little bit of lovin' goes a long long way
When our lips touched it does something to me
Can I get enough love can you give enough love to fill a little bitty heart like mine
It don't take much love to fill...
