

Wilburn Brothers, My Favorite Memory

Once in life you meet someone who gives to you
The reason for that life and what some love can do
So now I'm armed for trouble times with all I need
For I have you my favorite memory
You gave me something time can never take from me
A light that guides me when life's dark and I can't see
When I'm cold depend to hold will comfort me
Cause you'll be there my favorite memory
(steel)
Your lips were sweet your arms were warm I tasted light
You have my heart in every dream I dream each night
For something cause I've done dear now and I must sleep
You'll be my favorite memory
Now don't you cry it's not goodbye it's just so long
I'll take you with me where I'll travel from now on
Cause when I close my eyes at night and go to sleep
You're lying there my favorite memory
