

Wilburn Brothers, She'll Walk All Over You

The tracks you see on me she left behind
She likes to step on poor old hearts like mine
And there are no exceptions to her rule
Oh she'll do you like she did me she'll walk all over you
She'll walk across your heart and all of your pride
And leave a path of heartaches ten miles wide
She don't need boots anything she wears will do
Oh she'll do you like she did me she'll walk all over you
(guitar)
I know these things I can't make you believe
She's walked on better men than you and me
And she'll take all you got before she's through
Oh she'll do you like she did me she'll walk all over you
She'll walk across your heart...
Oh she'll do you like she did me she'll walk all over you
