

# Wilburn Brothers, Wastin' My Time

You're cold and you're cool and you're not the jewel I once knew  
You're bad when you're mad and you're glad when I'm sad and so blue  
I have no part of the love in your heart I call mine  
You won't be stayin' soon you'll go away and prove you just been wastin' my time  
Wastin' my time on love that's not mine one that can never be  
Wastin' my years and drownin' in tears that fall so helplessly  
You play cheatin' games and you call me bad names and that's dirty  
I know when you go you will blow and you'll crow how you hurt me  
I've loved you so long and you've done me so long what a time  
I won't forget it but I don't regret it though you just been wastin' my time  
( guitar - steel )  
Wastin' my time on love that's not mine...
