

# Wilco, Leave Me (Like You Found Me)

That's when I knew you  
Unhappy and lonely too  
That's what I wished for  
Somebody just like you  
To tell me what to do  
Honestly

And leave me like you found me

Can you believe it  
I'm somebody just like you  
Content with bein' blue  
Honestly

You leave me like you found me

I sit on the couch alone  
Where you sit when I'm not home  
And I feel so close... to you

And down the city streets  
People are climbing the trees  
They're finally up off their knees

Honestly

You leave me like you found me  
Can you leave me like you found me
