## Wild Orchid, Come As You Are

(verse 1)

Shelter my feelings, stand by my side You need no alibi Show your emotions, give me a sign Let me know that you're mine

Be my lover, be my best friend Oh baby, save me when I fade And I will always love you I promise I'll be true to you..if you..

(chorus) Come as you are Don't change a thing Here is my heart Just walk right in Come as you are Don't tell me lies And i'll be yours 'Till do us part

(verse 2) Now there is a heaven, it's in your eyes Where I have no disguise Please, please don't mislead me Rescue my pride Show me you're really mine I want you for me, no questions asked Don't need to know, 'bout your past 'Cause I will always love you I promise i'll be true to you..if you....

(chorus till fade)
