

Wild Youth, We Are One (Irlandia - piosenka na E

We take our first breath
And we exhale
Though we give it all we got
Until we fail

We get back up again
We take a look around
Oh, life can be a long road
But at least we're not alone

We might be different, we might be unique
You might be a leader, I might be a freak
And we might be different
But under the falling sun

Tonight we are one
We are one
When we rise, we rise like the sun
When we go down, we go down, we go down, we go down

We take our first step
And then we fall
But still we keep on going
Climbing every wall

We keep on fighting
Turning every stone
And life can be a long road
At least we're not alone

We might be different, we might be unique
You might be a leader, I might be a freak
And we might be different
But under the falling sun

Tonight we are one
We are one
When we rise, we rise like the sun
When we go down, we go down, we go down

We are one
(We might be different, we might be unique)
We are one
(You might be a leader, I might be a freak)
We are one
(And we might be different
But under the falling sun)

Tonight we are one
(We might be different, we might be unique)
We are one
(You might be a leader, I might be a freak)
When we rise, we rise like the sun
When we go down, we go down, we go down, we go down

We are one
