

# Wildhearts, Anthem

The lights are on  
The ships have gone  
I'm fine and dry and much to my relief

I'm flying high  
To beat the sky  
And One by One my blues lie underneath

A time to live  
A time to die  
A time to open up your eyes and see

I'm in love with the rock 'n' roll world  
I'm in love with the rock 'n' roll world  
I'm in love with the rock 'n' roll world  
I'm in love with the rock 'n' roll world

Why waste time  
To find the place  
When all the time the world was mine to keep

A time to live  
A time to die  
A time to open up your eyes and see

Rocks and stones  
and breaking bones  
The fits, the shakes, he tries to get some sleep

I'm in love with the rock 'n' roll world  
I'm in love with the rock 'n' roll world  
I'm in love with the rock 'n' roll world  
I'm in love with the rock 'n' roll world  
I'm in love with the rock 'n' roll world  
I'm in love with the rock 'n' roll world  
I'm in love with the rock 'n' roll world  
I'm in love with the rock 'n' roll world

Hold your breath  
And count to ten  
So good to be so fucked up... oh yeah!

I'm in love with the rock 'n' roll world  
I'm in love with the rock 'n' roll world  
I'm in love with the rock 'n' roll world  
I'm in love with the rock 'n' roll world  
I'm in love with the rock 'n' roll world  
I'm in love with the rock 'n' roll world  
I'm in love with the rock 'n' roll world  
I'm in love with the rock 'n' roll world
