

# Wildhearts, Crying Over Nothing

You, with the sadness in your eyes  
You've got places you could dream to  
If you'd only take the time

I've, got the arms to break your fall  
Bad you're sad without a reason  
And that's the baddest kind of all

Down, down, see then drown

Why, do you let it get you down  
Those empty headed heroes  
And those rumours going round

Tired, of having people you despise  
But you've got so much love inside you  
That you've never exercised

Down, down, see then drown

You can't stop crying over  
Can't stop crying over nothing  
You can't stop crying over, can't stop crying over  
Nothing, nothing, nothing

It's alright, so why care?  
If you bleed for the light  
I will follow you there  
'Cos there's a sun kissed cloud over rain dog holidays ' holiday!

Crying over nothing'
