

Wildhearts, Dangerlust

Whenever I'm on top there's someone trying to take me down
They say I've got to tag along to all this shit that's going round
Best times of my life sometimes I spend alone (Impress me)
I can never trust in you so how could you deserve me?
I'm poor, make me hot, give me glory or not, I'm sick of being
Ah-ha

They say that I never could be something
Climb on a job without putting me down
If I don't get nothing but I stay down under then
When I try' by' set my' self under
Chew on nobody else
Love hunger
Ever tried being yourself?
Love hunger
Give me some time on my own
Cos I wonder
Leave me a long' hair' yeah' heh

Honey turn the TV down
I get a line on their saying and pass it around
If it works for you, it'll work for us, so
Gimmee a little dangerlust
Gimmee a little dangerlust

D-d-d-dayglo buffaloes blew me away
Stranger the eye was 'tween the dust and the day
Mile high sweet as pie show me a sign
I'm smiling away cuz I know that it's mine

Honey turn the TV down
I get a line on their saying and pass it around
If it works for you, it'll work for us, so
Gimmee a little dangerlust
Gimmee a little dangerlust
