

# Wildhearts, In Lilly's Garden

Honesty will set you free  
But individuality is wonderland  
The greatest gift provided  
Kept inside a case  
No-one understands  
Add animal instinct here

When all is settled and done  
There's just empathy chains  
The crowd was second to none  
But the memory remains

In Lilly's garden  
In Lilly's garden

Some are small and some are smaller  
Wise above their size but they're all in here  
But they're all in here  
They needed company, condition free and  
Wanting me when I was near  
And down beneath the ground, waters meet

In the confusion of friendship  
They don't let you down  
To break the future in gently  
They're always around

In Lilly's garden
