

Wildhearts, Mindslide

Every time I get to thinking
My patience is shrinking, it's a mindslide
And every time I light a candle
To face an angle, it's a mindslide
I wake up fine then I'm taking a tumble
It's nothing personal at all
But a mindslide don't wait to call

Every time I'm closer to something
The feeling is nothing, to a mindslide
It's cold and dark it's a company killer
Cruella Devilla, it's a mindslide
My heart's in a song but my head's in a plateau
You catch your death from the fall
'Cos a mindslide don't wait to call
Hit it!

I'd like to live in the movies
Where weird is totally groovy
But out in the sticks
Socially it don't mix
'Cos nothing's gonna break your stride
Like a mindslide

Take yourself away from the next one
Away from the loved ones, it's a mindslide
Stay resigned, you don't even choose it
So how could you lose it? It's a mindslide
I'm walking on air then I'm down on my kneesies
I got a chain and a ball
'Cos a mindslide don't wait to call
Hit it!

Wish I could live in the movies
Where weird is totally groovy
And maybe I'll stay out of everyone's way
'Cos nothing's gonna break your pride
Like a mindslide

Try to make sense out of something uneven
It'll have you lickin' the walls
'Cos a mindslide don't wait to call
'Cos a mindslide don't wait to call
'Cos a mindslide don't wait to call
