

Wildhearts, Out From The Inside

Coming on strong, moving along
Taking a dive, being alive
Found us away ' Climbing up a rainbow
Ending the day ' At a place that we all know
Pass it around ' Hitting on the wall now
Never look down ' That's the way that it all goes

One step outside everything is feeling alright
One step inside everything is coming alive
One step outside everything is feeling alright

Open a line to see what you find
Get it today, give it away
How many times ' Gonna be your last try
Too many crimes ' Did you pay the toll
Loving all night ' Synfetic can't stop
Touching the sky ' Didn't lose control

One step outside everything is feeling alright
One step inside everything is coming alive
One step outside everything is feeling alright

Look away now
Run away now
Turn away from all our faces

One step outside everything is feeling alright
One step inside everything is coming alive
One step outside everything is feeling alright

Coming on strong, moving along
