

# Wildpath, Before I Die

Eyes in the night looking at me with delight  
Time has come for me to die  
It's for tonight I won't see morning's daylight  
Whispering inside,  
My old dreams, my loves, my fears, memories  
All my life I've been blind, now I understand  
I want to live what I've missed  
Before I ... !

Too late! No time! The past's no more!  
Future is dead and hope has gone  
I've been waiting! Wasn't knowing!  
Now I'm gonna die, don't know what's it to be alive

Wings of time, keepers of destiny,  
You kill me when I begin to believe!  
One last time I want to feel wind and light  
Dawning sun in my heart before I ...

I've been waiting! Wasn't knowing!
