

# Wildpath, Ice Rose

Cold, silently, a magic snow's falling and I see  
A faint light, leading my steps in this unknown place  
Fantasy's surrounding my thoughts as I reach my new home

Every time the sun lights the sky  
An Ice Rose's waiting for my heart

Who's behind this night spell, making ice eternal  
This winter angel I've been waiting for  
I've to know, want to find, I'm waiting for a sign  
During the whole night, your dreams are mine

I'm dancing with your soul, to keep our feelings safe in an Ice Rose  
Making this love last forever, within the ice no pretender

Every time the sun lights the sky  
An Ice Rose's waiting for my heart

Who's behind this night spell, making ice eternal  
This winter angel I've been waiting for  
I've to know, want to find, I'm waiting for a sign  
During the whole night, your dreams are mine

I'm dancing with your soul, to keep our feelings safe in an Ice Rose  
Making this love last forever, within the ice no pretender

I'm dancing with your soul, to keep our feelings safe in an Ice Rose  
Making this love last forever, within the ice no pretender

I'm dancing with your soul, to keep our feelings safe in an Ice Rose  
Making this love last forever, within the ice no pretender
