And I'm hearing loose talk like there's no end, don't pretend to be my freind, I see right through you
If you worship guns then bullets will fly through you
It's a choice that becomes known to all of us, on the street all of us believe that we are real, but you
If you ask me any questions then I'll tell you how I feel
Confront the situation like a punch in the face, your not real so you shud stay in your place boy

And now I'm on another level, keep your eyes on the level, cause they change every day
Go to sleep and when you wake, you will see them change again
I don't wanna be the one who didn't gain from the game
I want sumfin out of it, you cannot take me out of it, oi blud you must be out of it finkin you can shak
There's only so much you can take before you flip out, so I'm about to go my own way before I flip o
