

Will Oldham, Come A Little Dog

Come a little dog
Come a little dog and had a little dog
Come a little dog
Come a little dog and had a little dog
Come a little dog

Come a little dog
Come a little dog and had a little dog,
Come a little dog
Come a little dog and had a little dog
Killed a little cat, and I killed a little dog
Killed a little cat, and I killed a little dog
Come a little dog
Killed a little cat, and I killed a little dog
Woof-woof
Killed a little cat, and I killed a little dog
Woof-woof

Come a little dog
Come a little dog and had a little dog
Come a little dog
Come a little dog and had a little dog

Where did the little dog come from
The little dog came from you
Little black spot on its little brown head
Little dead dog, I love you

Come a little dog
Come a little dog and love a little dog
Come a little dog
Come a little dog and love a little dog
Come a little dog
