

Will Oldham, Do What You Will Do

do what you will do
i will watch with you
though i'm charged to wait awhile
i will wait for you in style
with you as a guide
i stay awhile
watch with me

i won't ask you to be friends with me
nor to stand by and protect
i can't ask you to lay hands on me
just to show me some respect

do what you will do...

and in rough times i can be with you
laying early in my bed
and in time i go to sleep and you
lay a kiss upon my head

do what you will do...

if an end comes it is good to be
in the presence of a few
with a few friends is how it should be
when everything is through

do what you will do...
