

# Will Oldham, I Am A Cinematographer

I am a cineomatographer (x4)  
And I walked away from New York City  
And I walked away from everything that's good  
And I walked away from everything I leaned on  
Only to find it's made of wood  
I was a big ol' bear once (x4)  
And I walked away from California  
And I walked away from everything that's known  
And I walked away from everything I lived for  
Only to find that everything had grown  
I am a cineomatographer (x4)  
If you were alone  
You can walk away from Louisville alone
