

# Will Smith, LIGHT EM UP ('Bad Boys: Ride Or Die

Bad boy sound  
I need some bad boy sound  
Bad boy sound mi say we run di town  
Light 'em up, light 'em up

Back in this bitch like I never left  
The devil came for me, shoulda wore a vest  
You thought I lost something, I ain't miss a step  
You want some old me? Say less  
I'm bad to the bone when I get it rockin'  
I'm back in my zone, bout to get it poppin'  
Wheels still plugged in, yeah it's pretty shockin'  
Like a brand new Porsche, I got plenty options  
I got the thing, I let it sing to ya  
Novocaine won't stop the pain that I'ma bring to ya  
It just ain't the same whenever they do it  
My name like your cell phone, got a ring to it  
Nobody realer, the whole unit guerrilla  
Can't lie, lay down to rot like four wheelers  
Can't hide when we outside of your villa  
Eye for an eye, don't cry, we won't miss ya

You ah badman boy  
You shouldn't fear fi go come outside (Light 'em up)  
We might bust your head cau' you know seh we ride or die (Light 'em up)  
Cross the line then you know seh your mama gwaan bawl and cry (Light 'em up)  
Man a badman boy you know you can run but you can not hide (Light 'em up)

See we vibe again badness it never end  
So you know we shoot straight our shot never bend  
We don't pretend we no mix and blend  
If you feel so you a bad then come test wi then  
It's all problem if you diss the don them  
Then you have to contend with the bad boy dem  
Our badness you know it's well different  
So you can't violate nor breach the current  
We don't take talks to no argument  
Kick and boxs down, I'm a real talent  
Bust off your face, now it's real apparent  
Don't bother squeal, don't try fi defend  
Don't bother run, don't bother call friend  
Not another word from your disgrunt friend  
Before you get burned, before your life end  
Another one down, then done again

You ah badman boy  
You shouldn't fear fi go come outside (Light 'em up)  
We might bust your head cau' you know seh we ride or die (Light 'em up)  
Cross the line then you know seh your mama gwaan bawl and cry (Light 'em up)  
Man a badman boy you know you can run but you can not hide (Light 'em up)
