

Will Young, Ticket To Love

I'm feeling high
I'm burning up
I'm ready for love
x4

I've been watching you for a long time
Trying to figure out what to do
And I don't know if I'm getting the green light baby
But I sure am going crazy for you

You're leading me on and making me sweat
I'm feeling the signs, I'm losing my head
I'm starting to fall
There's a mutual affection a chemical connection

Make your play now
If you want it come and get it
Make your play now
If you want it baby say it
Make your play now
If you want it come and get it baby ride this ticket to love

I'm feeling high
I'm burning up
I'm ready for love
x2

Don't be a fool you can see that it's pleasing me
Tearing and teasing me, burning me up
So please get it on, just say you'll be mine
?-

While we've got the time
Baby don't confuse me, say you're gonna choose me

Make your play now
If you want it come and get it
Make your play now
If you want it baby say it
Make your play now
If you want it come and get it baby ride this ticket to love
x2

I'm feeling high
I'm burning up
I'm ready for love
x2

Ride this ticket to love, come on yeah, yeah, yeah
Ride this ticket to love, come on
Ride this ticket to love, come on, come on, come on
Ride this ticket to love,
Baby
Make it groove, God you make it groove

I wanna see you work that body
