

Willard Grant Conspiracy, Color Of The Sun

Wrap a ribbon around your finger
Someday you'll remember
What it felt like in her arms
She could make you laugh
She could make you cry
Show you dark things deep inside

(Chorus:)

And I see it in your eyes x 2
The color of the sun

I'm blinded by the obsession
The heat of summer beckons
Blue, green and red are the colors on the sidewalk
Outside the buildings echo
The sound of the wind and I hear
The sound of my heartbeat
In my ears

(Chorus)

Wrap a ribbon around your finger
Someday you'll remember
What it felt like
In her arms

(Chorus)
