

# William Tell, Sounds

Take a breather, let your air out  
This can get you somewhere  
She's the queen of screaming shit out  
If she lets you stand there

You keep ringing in my head  
You always do this to me  
You keep ringing in my head  
Whatever happened to your song?  
It's just how the radio sounds  
We used to stay out all night long  
Living on radio sound

Grew up thinking  
You know what's right  
Nothing you can't see through

Stand and shiver  
Turn off your lights  
And tell me no ones changed you

You keep ringing in my head  
You always do this to me  
You keep ringing in my head  
Whatever happened to your song?

It's just how the radio sounds  
We used to stay out all night long  
Living on radio sound

You keep ringing.. ringing.. ringing..

Whatever happened to your song?  
It's just how the radio sounds  
We used to stay out all night long  
Living on radio..

Whatever happened to your song?  
It's just how the radio sounds  
We used to stay out all night long  
Living on radio sound
