

Willie Dixon, Everything's Got A Time

Everything's got a time
From start to end
Somebody tell me
Where time begins
Please tell me the time
Tell me the time of day
Tell me must I go
Tell me must I stay

There's a time to eat
There's a time to drink
A time to act
There's a time to think
A time to save
And a time to spend
A time to start
And a time to end

There's a time to reap
There's a time to sow
A time to come
There's a time to go
A time to laugh
And a time to cry
A time to live
And a time to die
