

# Willie Nelson, Words Don't Fit The Picture

If this is a game we play and if this is a roll I play  
Where are the words I say to you  
The words don't fit the picture anymore  
And if we've been acting all along and we both act right and we both act wrong  
Where does it say that we should cry  
It's just the words don't fit the picture anymore anymore  
The words don't fit the picture anymore no need to force the love scenes anymore  
And a one act play comes to an end and we turn to leave we can both part friends  
But this is the time to say goodbye goodbye  
Cause the words don't fit the picture anymore anymore
