Willie Nelson & Wynton Marsalis, Night Life

"(Instrumental intro -- Bass then joined by trumpet)"
"(Willie Nelson, vocal)"
When the evenin' sun goes down
You gonna find me hangin' 'round
The night life ain't no good life
But it's my life

Many people just like me Dreamin' of what used-to-be's Oh, the night life, it ain't no good life But it's my life

Listen to the blues they're playin' Listen what the blues are sayin'

Mine is just another scene From the world of broken dreams The night life ain't no good life But it's my life

"(Two verse guitar break)
(One verse harmonica break)"
Listen to the blues they're playin'
Listen what the blues are sayin'

Mine is just another scene From the world of broken dreams And The night life ain't no good life But it's my life

The night life it ain't no good life But it's my life
