

# Willie Nelson & Wynton Marsalis, That's All

"(Willie Nelson, vocal)"

Some people go to school tryin' to learn how to teach,  
Some people go to school tryin' to learn how to preach,  
But if you can't preach without goin' to school,  
You ain't no preacher you're an educated fool.

And that's all (that's all, that's all)  
Yeah, that's all (that's all, that's all)  
You better change your way of livin' 'cause the good Lord say, That's all.

Now a fellow I know is a miserly man  
Tryin' to save all the money he can.  
But when that undertaker lets him down  
Well where's he gonna spend that money under the ground?

And that's all (that's all, that's all)  
Yeah, that's all (that's all, that's all)  
You better change your way of livin', 'cause the good Lord say, That's all.

"(Two verse saxophone break)  
(Two verse harmonica break)  
(Two verse guitar break)  
(Two verse trumpet break)  
(Two verse piano break)  
(Five verse drum solo)"

Now man come from monkeys, some folks say,  
But the Good Book really don't tell it that way,  
And if you believe that monkey tale like some folks do  
I'd rather be that monkey than you.

And that's all (that's all, that's all)  
Yeah, that's all (that's all, that's all)  
You better change your way of livin', 'cause the good Lord say, That's all.

Now my little song is ended, my little song is through,  
And I didn't mean my little song exactly for you.  
But if you don't like the way my little song goes  
That's a real good sign I've been steppin' on your toes.

And that's all (that's all, that's all)  
Yeah, that's all (that's all, that's all)  
You better change your way of livin', 'cause the good Lord say, That's all.
