

# Willie Wisely, Joke

How can you stand there after all weve been through  
And act as if good fortunes nothing new?  
You had me half believing that if your dream came true  
Id be receiving something too  
But thats a joke  
And I was laughing too  
But if its a joke  
Im a fool  
The rat race ran your circles and I had to grab the wheel  
The doctor said your ulcer would never heal  
Thats a joke  
You trying play cool  
If its a joke  
Im a fool  
So now we speak of money, which we held in such disdain  
How once the world was ours, shit would change  
Thats a joke  
Guess Im laughing proof  
But if its a joke  
Whats it to me  
Whats that make me  
Why am I asking you?  
Was that a joke  
Cause if its a joke  
I know what that means  
I see what Ive been  
Ive been fooled
