

Willie Wisely, This Is Everything

Waiting for my entrance
Blowing past the street signs
Missing every other turn
Still getting there on time
Staring into loop holes
Faking every short cut
Knowing that my very best
Is on the other line
This is everything
Everyone you ever knew
Everywhere you ever went
Looking back at you
Tripped up on a green light
Waiting there for nobody
The future that I left behind
Standing in the way
What about the third time
Hanging in a long line
For a shimmer on a shoulder blade
Wont you give me a sign
This is everything
Everyone you ever knew
Everywhere you ever went
Looking back at you
Staring back at you
