

WILLOW & Avril Lavigne, G R O W (feat. Travis B

I been putting work in
Healing myself
Still got room to grow
I been really searching
Emotional wealth
Honestly my heart is broke
I just need to
Grow

I just need to grow

Evry time i look at my face
I feel everything it's the same growing pains
Cause no one every truly knows just who they are
And i feel closer knowing i don't hove to hide my scars
I hope you know you're not alone
Being confused ain't roght or wrong
You wi;; find that you're own best friend
And no, that ain't a fucking metaphore

I been putting work in
Healing myself
Still got room to grow
I been really searching
Emotional wealth
Honestly my heart is broke
I just need to
Grow
