

Winans Bebe, Lullabye For You

Or had heard of love
I'd have never known to dream
Surely never dreamt of her
Or bands of angels
That can sail across the heart
I never knew
But they do
Cause if not for her
I would never know
How it feels to look at you
Dreaming in my arms
Sweet sleeping angel
If we're ever far apart
Think of these words
And know they're true
Life will be fine
Puzzle piece as fit
And every road
Leads back to home
Cause if not for you
I'd have never ever known
What it means to really love
And that love is all we own
And that those angels
That were sailing through my heart
All of the time
They were you
And all those angels
That were sailing through my heart
All of the time
That was you
Was you
