

# Winans Phase 2, I Found Real Love

Lord, there's no way I could hide, the emptiness inside  
So I knew what I had to do  
Stretch my faith out on you, I knew you would come through  
The realest love I found in you  
You said you would take care of me, if I just believe  
Then I will see that I can't make it no other way no  
So I must follow where you go

Chorus:

Because I found real love  
Lord when I gave you my trust  
You proved there is no greater love

And there's no need to look no further no  
When it seemed all hope was gone, you said to depend on  
And put my trust in only you  
When I gave in totally, something took over me  
You gave my heart perfect peace  
Lord I know you were there with me, waiting patiently  
To take care of me, and now I know it's you that made my way clear  
You calmed all my fears  
Chorus
