

Wings, Get On The Right Thing

All at once you get love on your mind
And your world is as kind as a penny
Oh... and you knew it all along, you did the right thing
Believe me its true, and it can happen to you

All at once you get sound in your ears
And your cloud disappears into yellow

Well you know they were were wrong
Get on the right thing
Well you knew it all along
Get on the right thing
Believe me its so, because i happen to know

Try a little love, you can't go wrong
Get On the right thing,
Get on the right thing,
Get on the right thing

My little love you cant go wrong
Get on the right thing,
Get on the right thing,
Get on the right thing

Do, get on the right thing you

All at once we see things in our skies
And we both realize it together
Well you know they were wrong
Get on the right thing
Yes you knew it all along
Get on the right thing
Believe me its so
Because i happen to know

You can't go wrong
Get on the right thing,
Get on the right thing,
Get on the right thing,
You can't go wrong get on the right thing

Ah get on the right thing you.

And try a little love
And it can't go wrong
Get on the right thing you
Try a little love, you can't go wrong
Get on the right thing
