

Winona Oak & Robin Schulz, Oxygen

Passion makes me paranoid
Jealousy can make you blind
Lookin' hard for something wrong
Where trouble searches trouble finds

I need you like oxygen
Tired to me breathe you in
Prove it to me once again

Show me you love me
You know i get scared
I am not just broken
I am beyond repair
Tell me you need me
Tyou know i get scared
Make me forget that
I am beyond repair

Everything is triggering
Dealing whit a damaged mind
Soemthing about your fingerprints can calm me down
When you're around the lines

I, I, I need you like oxygen
Tired to me breathe you in
Prove it to me once again

Show me you love me
You know i get scared
I am not just broken
I am beyond repair
Tell me you need me
Tyou know i get scared
Make me forget that
I am beyond repair

Please love, love
Please love, care
Please love, love
Please love, love
Please love, love
Please love, care
Please love, love

Never /3x
Ever stop
Cause i will
Never /3x
Ever get enough
Show my you love me
Love /3x
I am in pieces /2x
Can you see it?
I am in pieces /2x
Darling, please stress

Show me you love me
You know i get scared
I am not just broken
I am beyond repair
Tell me you need me
Tyou know i get scared
Make me forget that
I am beyond repair

Please love, love
Please love, care
Please love, love
Please love, love
Please love, love
Please love, care
Please love, love
