

Winter rose, I'll never fall in love again

You'll never see the tears I've cried
You'll never feel my heart in pain
You'll never know the reasons why
I'll never fall in love again
You can stare into men's eyes
And give them love that's a pack of lies
They're out on the streets again alone
Whoa

I want to say I love you
But you don't really care
Pull the knife out from my back
Who said that love was fair?
You'll never see the tears I've cried
You'll never feel my heart in pain
You'll never know the reasons why
I'll never fall in love again
I'm sleeping all alone tonight
No time to bleed, no time to fight
I've built a wall around my heart
Whoa

It's sad when no one loves you
But is that so hard to bear?
A life is lost to loneliness
Who said that love was fair?
You'll never see the tears I've cried
You'll never feel my heart in pain
You'll never know the reasons why
I'll never fall in love again
