

# Wintergreen, Waste Of Time

I drive a little further each day  
Just to watch it all fade away  
Well maybe the future has something to give  
Now that I've found a new reason to live

It's all just a waste of time

The way that I planned it all inside of my head  
How it all happened  
It wasn't what I was expecting

To give away  
It's the price I pay

Do you see that?  
After all this time well spent  
When you look back  
Try not to resent  
All of the debris I hope that someday you will see  
How much you meant to me

Don't worry about me anymore  
What's the hurry eventually you'll just get  
Bored with yourself so you go find someone else  
A better actor than me  
He's in a movie made for TV

Do you see that?  
After all this time well spent  
When you look back  
Try not to resent  
All of the debris (of what we used to be)  
I hope that someday you will see  
How much you meant to me  
You have meant to me...
